

In the time it takes
to read this notice,
you can help protect
your climate future.

Young people have been left out of the national conversation around climate change. But they have the most skin in the game—even as they did not cause the problem in the first place!

This April, promote your views by conveying with captioned photos what the local area could look like in the coming decades. The woods? The beach? The streets? Your backyard? You choose. A pilot effort in Cape Elizabeth in 2023 proved to be a huge success, triggering a national project.

EXCITING DETAILS

Join students at local high schools
in an initiative by the local nonprofit
Seeing for Ourselves,
also involving students
in Chicago and San Francisco!

Your work can be featured
in a gallery exhibit hosted
by Thomas Memorial Library in Cape
and a documentary film targeted
for public television and film festivals worldwide!

YOUR BENEFITS

- Amplify your views about climate change
- Possibly earn a stipend for participating
- Obtain a unique extracurricular for college
- Promote your school nationally
- Take a step forward to stardom (optional)
